GREENE COUNTY COMPREHENSIVE PLAN UPDATE- 2018

DRAFT GOALS AND STRATEGIES FOR ALL FOCUS GROUPS

BUSINESS AND INDUSTRY

GOAL 1. Identify the Growth Corridors most conducive to economic development in the County.

STRATEGY A. Continue to pursue funding for property development in and around the I-79 Interchanges.

STRATEGY B. Identify corridors and parcels that offer “strategic advantages” for existing and future businesses and industry.

STRATEGY C. Create a database of sites that can be developed.

STRATEGY D. Identify and pursue hi-tech businesses and job opportunities for growth areas.

GOAL 2. Capitalize on Greene County’s position to take advantage of abundant and inexpensive energy sources for future growth and development.

STRATEGY A. Seek to learn what those in the natural gas industry plan for growth.

STRATEGY B. Look at possible locations for a mini cracker plant.

STRATEGY C. Explore opportunities with Utica gas (especially in the eastern portion of the County).

STRATEGY D. Determine the availability and marketability of low cost electricity and determine how much electric capacity the County currently has and what additional power is needed (and where).

STRATEGY E. Prepare for and pursue opportunities to attract industry to the county from regions that are seeking resilient locations and are aligned with the industry sectors that exist here and are growing.

STRATEGY F. Identify priority brownfield sites that have redevelopment potential.

GOAL 3. Identify and prioritize the best business opportunities for growth and expansion to develop a diversified economy in manufacturing, healthcare, chemicals, tourism and agriculture sector start-ups.

STRATEGY A. Develop a process that determines which small businesses are interested in resources (technical, funding, etc.) to maximize profitability and will provide the best return on investment.

STRATEGY B. Provide guidance and entrepreneurial resources for companies that are primed for growth within the county.

GREENE COUNTY COMPREHENSIVE PLAN UPDATE- 2018

DRAFT GOALS AND STRATEGIES FOR ALL FOCUS GROUPS

STRATEGY C. Identify entrepreneurs and innovative startup companies that are seeking assistance to maximize the benefit of regional and county resources and assets.

STRATEGY D. Advise utilities, infrastructure, workforce and education practitioners of business needs.

STRATEGY E. Develop specific strategies for high speed internet by working with network providers to explore options.

GOAL 4.

STRATEGY A. Utilize the services of an individual or firm who has experience and expertise to fully understand the gas industry.

STRATEGY B. Develop a point of responsibility / leadership for potential business and industry looking to locate in the County – A “Business Concierge”.

STRATEGY E. Provide information on incentives, funding opportunities and other programs for business and industry looking to locate in Greene County.

STRATEGY F. Promote existing county websites and utilize these to help with marketing efforts.

GROW AND PROTECT ASSETS

GOAL 1. To maintain Greene County’s current assets and grow future assets, the county must invest in improvements to utilities and infrastructure including - broadband, sewage, water etc. especially on Rt 21, I-79 and the Monongahela Riverfront.

STRATEGY A. Emphasize the importance of technology in all future growth places.

GOAL 2. Develop and form partnerships with businesses, state, regional, local governments, educational and philanthropic allies to leverage public and private investments that enhance Greene County’s ability to grow assets.

STRATEGY A. Situated between some of the nation’s major institutions of innovation, expand the “I-79 Technology Corridor” into Greene County from West Virginia.

STRATEGY B. Because of the proximity to the “I-79 Technology Corridor”, utilize and expand the Greene County Airport to enhance future mobility and technology.

GREENE COUNTY COMPREHENSIVE PLAN UPDATE- 2018

DRAFT GOALS AND STRATEGIES FOR ALL FOCUS GROUPS

GOAL 3. *Develop a long-term strategy for the future utilization and reuse of coal and power generation lands so that the control of the future use of these lands is in the hands of county/local government.*

STRATEGY A. Form a strong alliance with the US Department of Energy and other Research and Development organizations from Morgantown to Pittsburgh to benefit from their coal, oil and gas programs.

GOAL 4. *Develop a future business plan based on Greene County's unique underground stratigraphy resources.*

GOAL 5. *Reduce the taxes for residents and businesses in Greene County by developing a multifaceted tax abatement and incentive program to increase investment in Greene County to compete in the Appalachian Region.*

LOCAL GOVERNMENT

GOAL 1. *Encourage and actively support cohesion and cooperation between the County and all local municipalities.*

STRATEGY A. Identify a liaison that has direct contact with state agencies such as PennDOT, DEP, DCNR and DCED, that can assist municipalities, developers, etc.

STRATEGY B. Investigate the opportunity to form a Council of Governments.

STRATEGY C. Encourage municipalities (especially in identified Investment Areas) to enact similar land use ordinances.

STRATEGY D. Adopt guiding principles for all 26 municipalities.

GOAL 2. *Address and improve blighted areas throughout the County.*

MOBILITY, TRANSPORTATION AND INFRASTRUCTURE

GOAL 1. *Identify "Green" initiatives, alternative systems and best management practices to address sewage treatment and stormwater management that are acceptable to state / federal agencies.*

GOAL 2. *Support the expansion of public infrastructure to areas that provide the best return on investment throughout the County.*

STRATEGY A. Provide information about water and sewer extensions to local municipalities.

GREENE COUNTY COMPREHENSIVE PLAN UPDATE- 2018

DRAFT GOALS AND STRATEGIES FOR ALL FOCUS GROUPS

STRATEGY B. Examine the potential to utilize the river to move goods and products from a multi-modal facility.

GOAL 3. *Improve mobility opportunities to provide services and facilities to individuals and municipalities.*

STRATEGY A. Explore options for local bus companies to provide service within the County when school is not in session.

STRATEGY B. Explore opportunities for transit agencies outside of Greene County (i.e. FACT, GG&C) to provide service to County residents.

QUALITY OF LIFE

GOAL 1. *Strengthen and support human services (mental health and wellness) through the expansion of opportunities and access to programs for vulnerable families and individuals.*

GOAL 2. *Continue to be environmentally conscious through the support of efforts to protect and preserve our natural resources.*

STRATEGY A. Promote the legacy of being a good steward of Greene County.

STRATEGY B. Continue to enhance and support the hard-to-recycle-electronics events that are presently in place.

STRATEGY C. Encourage and educate municipal officials and residents to promote a county-wide recycling program.

WORKFORCE AND EDUCATION

GOAL 1. *Develop a plan to align local industry employment opportunities as student portfolios are developed through the Pennsylvania Department of Education Career Clusters program.*

GOAL 2. *Identify programs available through the state and workforce system and utilize them to the extent possible.*

Student Focus Groups-

Greene County Comprehensive Plan Update

Throughout the month of December 2019, Planning staff from Mackin Engineering met with students from Greene County's five school districts to gather opinions about the County from the younger population. The students discussed the things they love about Greene County as well as their hopes for the future of the County.

These students summarized their thoughts about the community in less than six words. They also wrote a "postcard from the future" from their future selves depicting what Greene County is like 20 years from now.

General Comments:

- Greene County currently has safe communities.
- Having entertainment such as sports leagues, malls and restaurants would help make Greene County more attractive.
- Many students would like to see the County drug-free.

Carmichaels Area School District

- Carmichaels students see the County with more entertainment, restaurants and activity.
- Students think of family, friends, home and school when they think of their community.

Central Greene School District

- In Central Greene, students hope for more jobs, entertainment, businesses in the County.
- Students here believe their community is rural, peaceful and family centered.

Jefferson-Morgan School District

- Students in Jefferson-Morgan envision the county with more restaurants and shopping.
- They feel that their community is currently small, quiet and a peaceful place to call home.

S.E. Greene School District

- Jobs, agriculture, economy, and community should be focus areas of plan
- Most students used the words small, home, boring and quiet to describe their communities.

West Greene School District

- Students would like infrastructure, employment and population improvements in the future.
- Home, family, supportive and safe are words they used to describe their community.

Greene County Overdose Task Force Three Year Strategic Plan

June 2018-June 2021

Funded by: Pennsylvania Commission on Crime and Delinquency

OVERVIEW

Introduction

The Greene County Overdose Task Force Three Year Strategic Plan, June 2018-June 2021, is included in the pages below. The Strategic Plan was developed using the ideas/suggestions generated during the strategic planning workshop in May 2018.

The priorities, strategies, and objectives included in this plan aim to provide an overview of the overarching goal (priority), the strategy for achieving that goal, and the identified objectives. Goals and strategies should not change based on political climate or other outside factors, but the objectives are more adaptable.

Priorities, strategies, and objectives were developed directly from the goals drafted by the task force. Those in italics are suggestions from the Technical Assistance Center, derived from TAC processes and guidelines, as well as what evidence suggests will be effective in reducing overdose. As noted above, these activities are adaptable, given funding opportunities and other factors.

Greene County Overdose Task Force Vision

Supporting individuals, families, and communities in Greene County to end overdose.

Goals Summary

Goal 1:

Ensure that individuals with substance use disorder have access to evidence-based treatment and recovery opportunities along a full continuum of care.

Goal 2:

Increase community education and awareness and reduce stigma.

Goal 3:

Reduce fatal and nonfatal overdose in Greene County through evidence-based primary (not beginning use) and secondary (preventing overdose) prevention strategies.

Goal 4:

Reduce the supply of opioids in Greene County.

Goal 5:

Ensure sustainability for the Greene County Overdose Task Force.

GOAL 1

Goal 1

Ensure that individuals with substance use disorder (SUD) have access to evidence-based treatment and recovery opportunities along a full continuum of care.

Strategy

Improve access to a variety of treatment options through advocacy for evidence-based treatment opportunities and education for both community members and individuals with SUD on available treatment options from pre-treatment engagement to post-treatment recovery support.

Objective 1A

By December 2018, assess the treatment assets and treatment needs within Greene County along the entire continuum of care and develop mechanisms for sharing this information with both professionals and community members. Include specific programmatic aspects including, but not limited to:

- Access to support services, including availability and transportation;
- Pre-treatment interventions such as warm handoff;
- Treatment options that meet clients' needs;
- Discharge planning;
- Recovery support; and
- Family support.¹

Objective 1B

By December 2018, Greene County residents, including those with SUD and their families, will have ongoing access to treatment support services, including existing treatment navigator(s) as well as other necessary support persons based on assessed need (1A).

Objective 1C

By June 2019, Greene County residents, including those seeking treatment and their loved ones, will receive ongoing education on all available treatment opportunities applicable to individuals in the county.

Objective 1D

By June 2020, individuals with SUD in Greene County will have access to the appropriate treatment options to meet their individualized needs.

Objective 1E

By December 2020, provide long-term care opportunities to all known Greene County residents leaving treatment,

¹ This objective includes feedback provided by the Greene County community.

GOAL 1-2

including recovery support services, such as support groups or faith-based organizations.

Objective 1F

By June 2021, research and implement, as appropriate, evidence-based incentives for individuals with SUD to enter and complete treatment.

Goal 2

Increase community education and awareness and reduce stigma.

Strategy

Launch a public awareness campaign to increase awareness of SUD for community members and professionals in Greene County.

Objective 2A

By June 2019, assess stigma within Greene County to identify appropriate community awareness campaigns and educational programs.

Objective 2B

By December 2019, implement a multi-platform (e.g., digital, print media, and social media) messaging campaign throughout Greene County to inform the community of the scope of the problem and solutions. For example:

- Mental Health
- Recognizing SUD/ODU
- Naloxone Availability and Use
- Stigma²

Objective 2C

By June 2021, ensure that residents in Greene County are well-informed on signs of an SUD, overdose and SUD intervention, treatment, safe drug disposal, and recovery options. Target Populations include, but are not limited to, the following:

- Individuals Engaged in Treatment
- Families and Friends of Individuals with Substance Use Disorders
- Schools/Students
- Clergy and Faith Leaders

² This objective includes feedback provided by the Greene County community.

GOAL 2-3

- Parents
- Community Members and Bystanders

Objective 2D

By June 2021, ensure that professionals in Greene County are well-informed on SUD, overdose, naloxone, SUD intervention/treatment, safe drug disposal, safe pain management techniques (including counseling), and recovery options, as well as additional occupation-specific resources such as the PDMP. Target professions include, but are not limited to, the following:

- First Responders (Fire Departments, EMS Agencies, and Law Enforcement)
- Physicians
- Pharmacists
- Teachers
- County Personnel (Children and Youth, Aging, etc.)
- Probation/Parole

Goal 3

Reduce fatal and nonfatal overdose in Greene County through evidence-based primary (not beginning use) and secondary (preventing overdose) prevention strategies.

Strategy:

Implement a prevention initiative throughout Greene County to increase protective factors and decrease risk factors related to substance use disorder (SUD) and overdose.

Objective 3A

By June 2019, ensure that all eligible individuals and organizations are aware of the availability and utilization of naloxone through their Centralized Coordinating Entity (CCE).

Objective 3B

By June 2019, identify the availability of naloxone in pharmacies to develop resources for the public and ensure that all pharmacies in Greene County are carrying and co-prescribing naloxone as well as using appropriate confidentiality and sensitivity when speaking about naloxone and drug-related services with customers.

Objective 3C

By December 2019, ensure that all first responder departments (EMS, Fire, and Police) are educated on the benefits of naloxone to promote the carrying, utilization, and tracking of reversals in Greene County.

GOAL 3-4

Objective 3D

By December 2019, expand current evidence-based school programs to ensure that all students in Greene County School Districts, from early childhood to graduation, have received age-appropriate prevention education.³

Objective 3E

By June 2020, develop and implement a prevention initiative for senior citizens, including information on safe medication consumption, signs of an overdose, and safe storage practices, as well as resources for seniors who are impacted by family members with SUD or are caring for grandchildren.⁴

Objective 3F

By December 2020, increase life skills development, workplace education, employee assistance programs and job placement, including for those individuals with criminal records, to better support individuals in recovery, their families, and the community at large, and to provide more opportunities to achieve success economically and socially.

Objective 3G

By June 2021, implement a drug court/pro-treatment options within the county legal systems, with a particular focus on youth.⁵

Objective 3H

By June 2021, ensure that all vulnerable populations are provided naloxone. Vulnerable populations include, but are not limited to, the following:

- Individuals awaiting treatment or leaving treatment;
- Individuals leaving incarceration with a history of substance use disorder;
- Individuals, or the families and friends of individuals, who are treated by EMS for an opioid overdose incident.

Goal 4

Reduce the supply of opioids in Greene County.

Strategy

Empower law enforcement to enhance and utilize their resources to the fullest extent.

Objective 4A

By June 2019, identify legislation and resources to support local law enforcement in their efforts to arrest drug dealers and traffickers in the community, and increase consequences for the use and sale of opioid-related substances.

^{3,4,5} These objectives include feedback provided by the Greene County community.

GOAL 4-5

Objective 4B

By June 2019, increase awareness of and access to medication storage and disposal resources in Greene County.

Objective 4C

By December 2019, develop and increase awareness of an opioid-related tip line for law enforcement that includes pathways to enforcement for those who are selling illegal drugs, as well as physicians who are not adhering to legal prescribing practices.⁶

Objective 4D

By June 2020, implement a post-overdose response program that captures individuals who have received naloxone from law enforcement or other first responders.⁷

Objective 4E

By June 2021, research and implement, if appropriate, a law enforcement diversion program to encourage treatment instead of incarceration for drug-related offenses.

Objective 4F

By June 2021, identify funding to increase the capacity of local law enforcement departments or a cooperative "task force."

Goal 5

Ensure sustainability for the Greene County Overdose Task Force.

Strategy

Build sustainability for the Greene County Overdose Task Force through collaboration, communication, data-driven decision-making, and funding.

Objective 5A

By June 2018, develop subcommittees with formal subcommittee leaders for each identified Task Force goal, with collaborators from all relevant individuals across stakeholder groups in Greene County.

Objective 5B

By June 2018, develop a formal system for stakeholder groups to report and share information, activities, and events at each coalition meeting.

Objective 5C

6, 7 These objectives include feedback provided by the Greene County community.

GOAL 5

Objective 5D

By December 2018, develop a communication plan for sharing relevant information, both internally and externally.

Objective 5E

By December 2018, create a centralized data repository that will be used to drive decisions and inform policy making.

Objective 5F

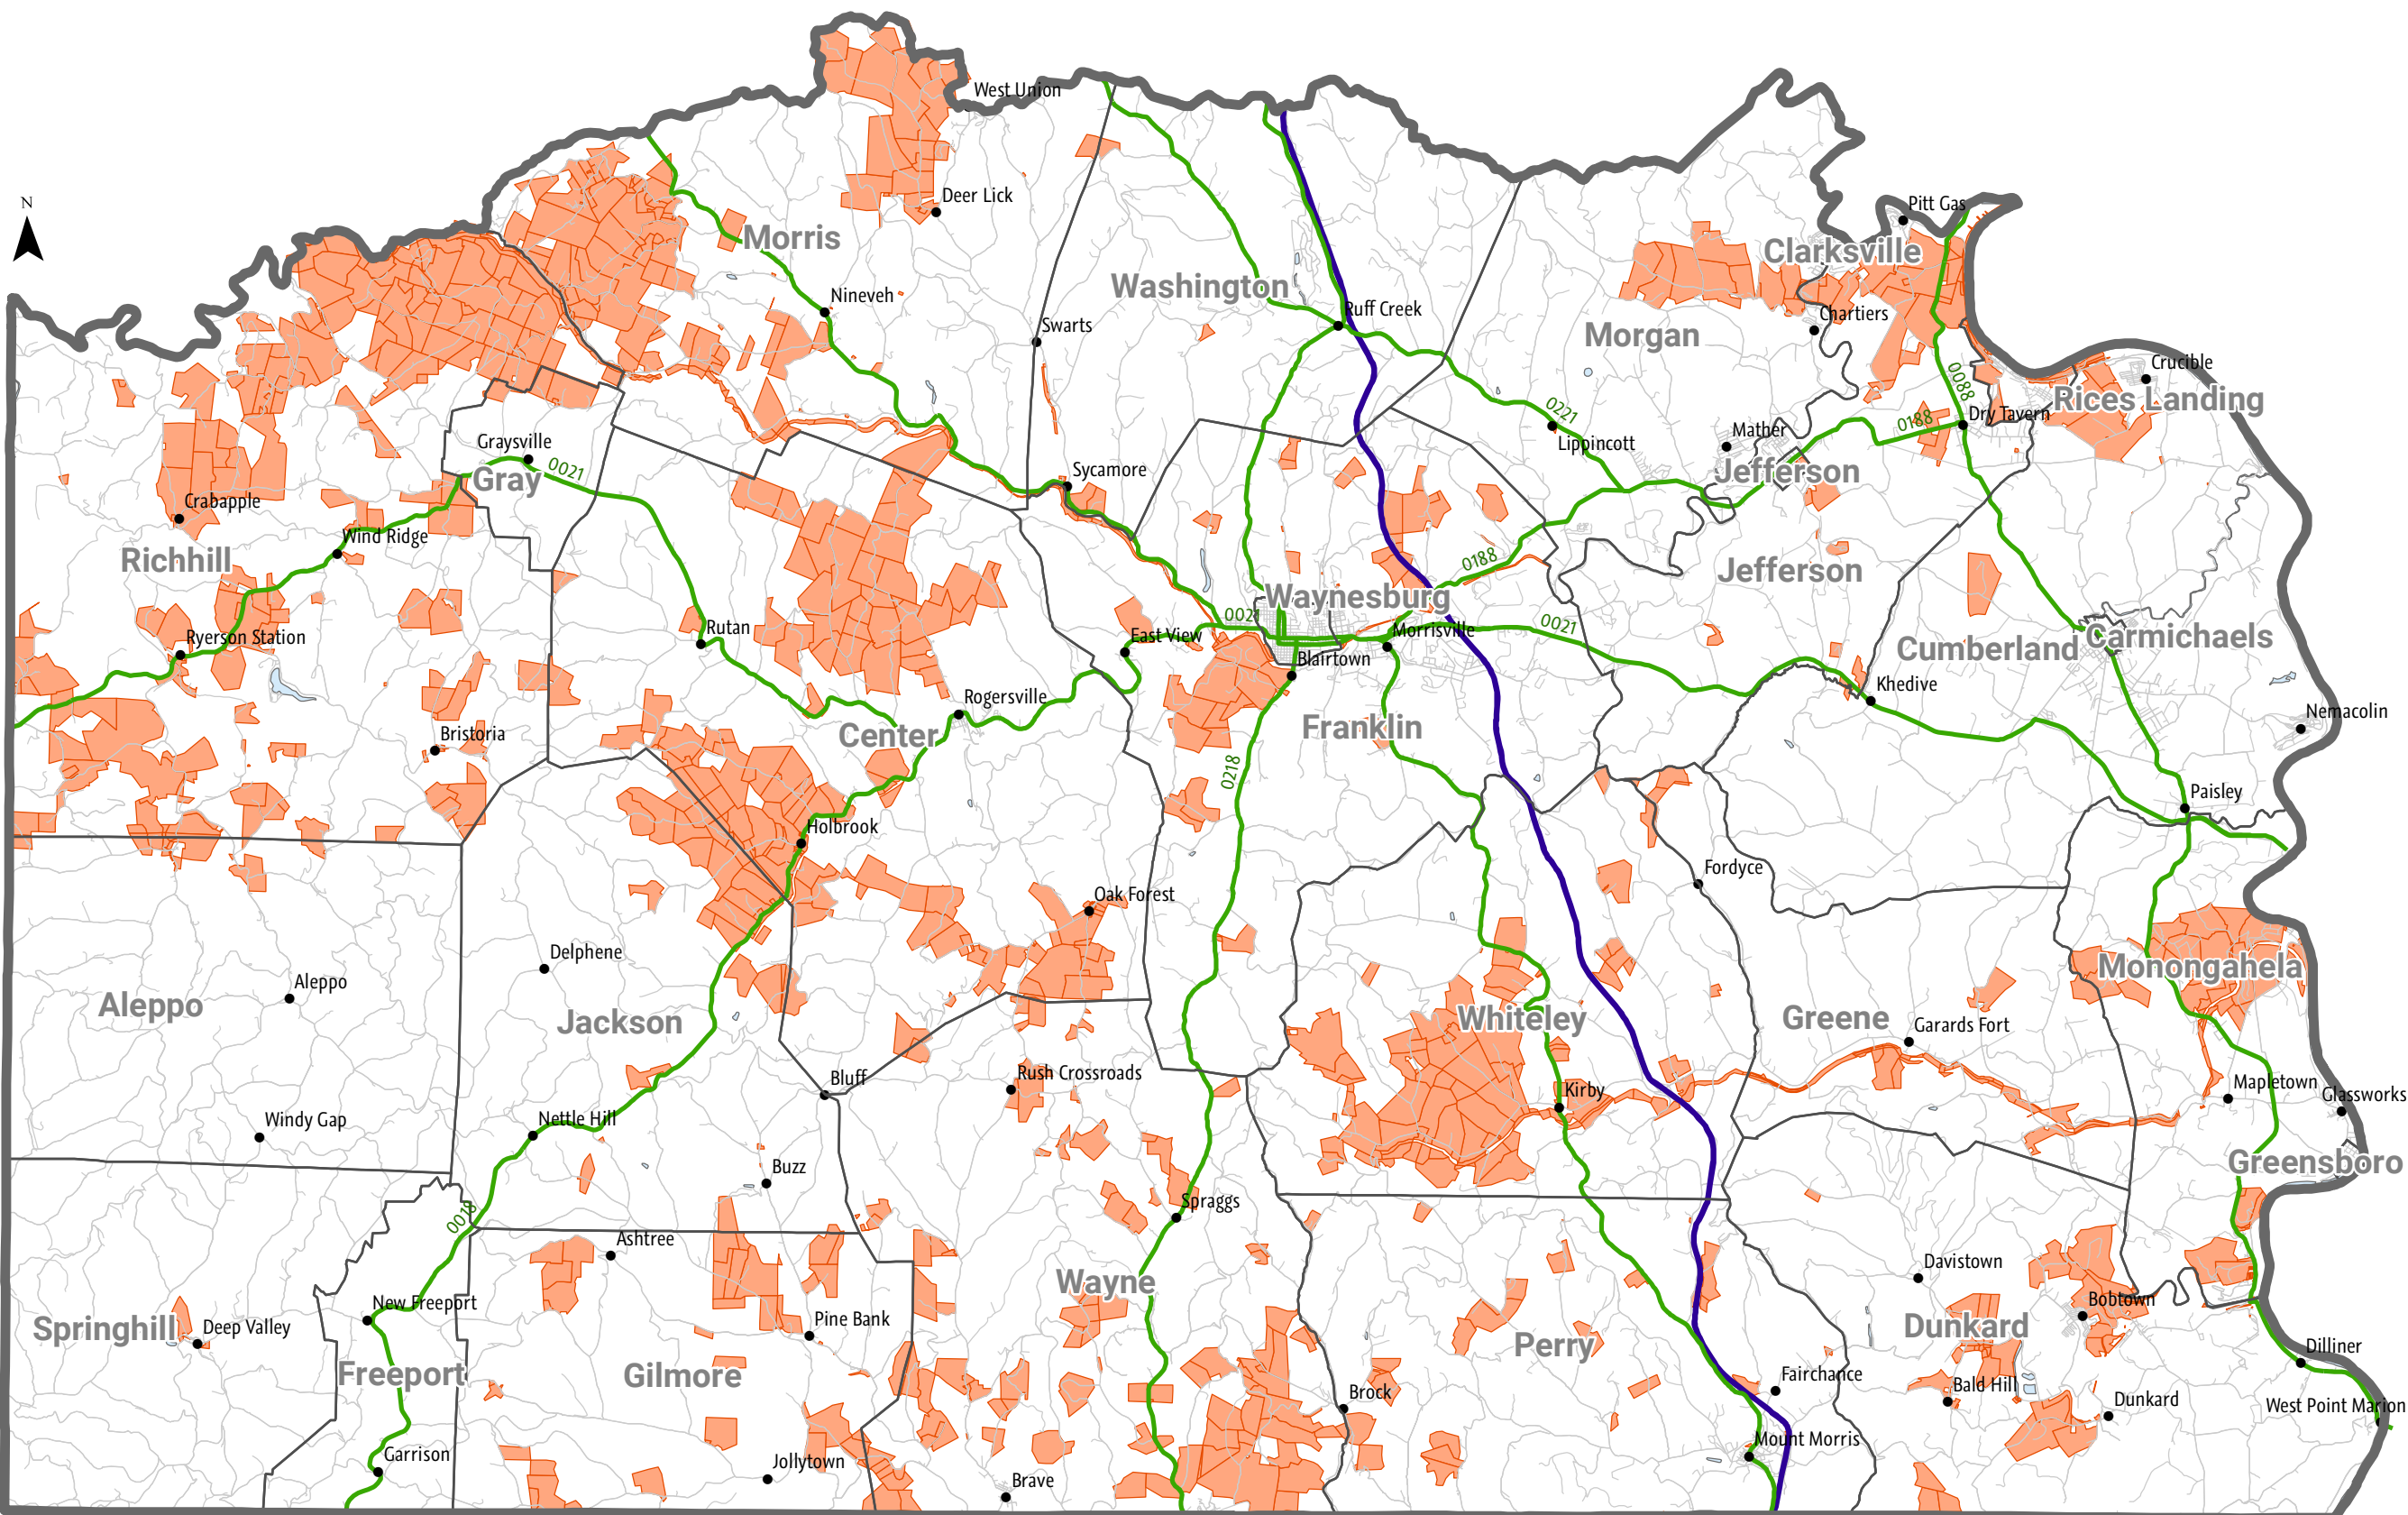

Ongoing: Research and apply for funding that can be used to support the identified Task Force goals.
